2008-2010 HUNTING SEASONS

The rules and regulations contained within this digest have been officially approved and adopted by the Louisiana Wildlife and Fisheries Commission under authority vested by Section 115 of Title 56 of the Louisiana Revised Statutes of 1950 and are considered to be in full force and effect in conjunction with all applicable statutory laws. A HUNTER'S PLEDGE

Responsible hunting provides unique challenges and rewards. However, the future of the sport depends on each hunter's behavior and ethics. Therefore, as a hunter, I pledge to:

- X Respect the environment and wildlife.
- X Respect property and landowners.
- X Show consideration for non-hunters.
- X Hunt safely.
- X Know and obey the law.
- X Support wildlife and habitat conservation.
- X Pass on an ethical hunting tradition.
- X Strive to improve my outdoor skills and understanding of wildlife.
- X Hunt only with ethical hunters.

By following these principles of conduct each time I go afield, I will give my best to the sport, the public, the environment and myself. The responsibility to hunt ethically is mine; the future of hunting depends on me.

2008-2010 GENERAL DEER HUNTING REGULATIONS

***NEW* Deer Tagging for 2008/09 Season**

Prior to hunting deer, all deer hunters, regardless of age or license status, must obtain deer tags and have in possession when hunting deer. Immediately upon harvesting a deer, the hunter must tag the deer with the appropriate carcass tag, and document the kill on the deer tag license. Within 72 hours the hunter must validate the kill and record the validation number on the license. Hunters harvesting deer on DMAP and LADT lands can validate deer per instructions by LDWF using the DMAP and LADT harvest data sheets. Hunters on wildlife management areas can validate deer during mandatory deer check hunts, when deer check stations are in operation. Hunters may validate deer by calling the validation toll free number or using the validation web site.

A. One antlered and one antlerless (when legal) deer per day EXCEPT on some Federal Refuges (check Refuge regulations) and National Forest Lands where the daily limit shall be one deer per day. Season limit is six, three antlered bucks and three antlerless deer (all segments included) by all methods of take, EXCEPT antlerless harvest on property enrolled in DMAP and LADT does not count in the season or daily bag limit for hunters **and except antlerless harvest on State Wildlife Management Areas during the daily permit deer hunts, when validated by LDWF personnel, does not count in the season bag limit for hunters.**

Antlerless deer may be harvested during entire deer season on private lands (all segments included) EXCEPT in the following parishes: West Carroll and portions of East Carroll. Consult the modern firearms table above for either-sex days for those parishes. This does not apply to public lands (Wildlife Management Areas, National Forest Lands, and Federal Refuges) which will have specified either-sex days.

B. A legal buck is a deer with visible antler of hardened bony material, broken naturally through the skin. Killing or taking game quadrupeds or birds from aircraft, participating in the taking of deer with the aid of aircraft or from automobiles or other moving land vehicles is prohibited. Bucks without at least one visible antler as described above and killing does is prohibited EXCEPT where specifically allowed and EXCEPT in Thistlethwaite Wildlife Management Area where a legal buck shall be defined as deer with at least 4 points on one side or a deer with unbranched antlers commonly referred to as spikes (no minimum length). To be counted as a point, a projection must be at least one inch long and its length must exceed the length of its base. The beam tip is counted as a point but not measured as a point.

C. Deer hunting restricted to legal bucks only, EXCEPT where otherwise allowed.

D. Either-sex is defined as male or female deer. Taking or possessing spotted fawns is prohibited.

E. It is illegal to hunt or shoot deer with firearms smaller than .22 caliber center-fire or a shotgun loaded with anything other than buckshot or rifled slug. Handguns may be used for hunting.

- F. Taking game quadrupeds or birds from aircraft, participating in the taking of deer with the aid of aircraft or from automobiles or other moving land vehicles is prohibited.
- G. Still hunting is defined as stalking or stationary stand hunting without the use of dog(s). Pursuing, driving or hunting deer with dogs or moving vehicles, including ATVs, when or where a still hunting season or area is designated, is prohibited. The training of deer dogs is prohibited in all still hunting areas during the gun still hunting and archery only season. Deer hunting with dogs is allowed in all other areas having open deer seasons that are not specifically designated as still hunting only. Except in wildlife management areas, a leashed dog may be used to trail and retrieve wounded or unrecovered deer during legal hunting hours. Any dog used to trail or retrieve wounded or unrecovered deer shall have on a collar with owner's name, address, and phone number. In addition, a dog may be used to trail and retrieve unrecovered deer after legal hunting hours; however, no person accompanying a dog after legal hunting hours may carry a firearm of any sort.
- H. It is illegal to take deer while deer are swimming or while the hunter is in a boat with motor attached in operating position; however the restrictions in this paragraph shall not apply to any person who has lost one or more limbs.
- I. Areas not specifically designated as open are closed.

- J. **PRIMITIVE FIREARMS SEGMENT:** (Special license and **primitive firearms** specifications apply only to the special State, WMA, National Forest and Preserves, and Federal Refuge seasons). Still hunt only. See page 4 for specific hunting area dates. Specific WMAs will also be open. Check WMA schedule for specific details. A **primitive firearms** license is required for resident hunters between the ages of 16 and 59 inclusive and non residents 16 years of age and older. Either-sex deer may be taken in all deer hunting areas EXCEPT Area 5 and as specified on Public Areas. It is unlawful to carry a gun, other than a **primitive firearm**, including those powered by air or other means, while hunting during the special **primitive firearms** segment. EXCEPT, it is lawful to carry a .22 caliber rimfire pistol loaded with #12 shot (ratshot only).

- 2.) **Single shot, breech loading rifles, .38 caliber or larger, of a kind or type manufactured prior to 1900 and replicas, reproductions or reintroductions of that type rifle having an exposed hammer that use metallic cartridges loaded either with black powder or modern smokeless powder.**

All of the above may be fitted with magnified scopes.

SPECIAL YOUTH DEER SHOTGUN SEASON ON PRIVATE LAND (Either Sex): Youths 17 or younger may hunt deer with shotguns using slugs only during the Primitive Firearms Season in each Deer Hunting Area.

- K. **ARCHERY SEGMENT:** Still hunting only Oct. 1-Jan. 31 in all deer hunting areas, EXCEPT Areas 3 and 8 where the season will be Sept. 20-Jan. 15, and Area 6 where the season will be Oct. 1-15 for bucks only and Oct. 16-Feb. 15 for either-sex. WMA seasons are the same as outside except as noted below. An archery license is required for resident bow hunters between the ages of 16 and 59 inclusive and non-residents 16 years of age and older. Either-sex deer may be taken in all areas open for deer hunting EXCEPT when a bucks only season is in progress for gun hunting and EXCEPT in Area 6 from Oct. 1-15. In such cases, archers must conform to the bucks only regulations. Either-sex

deer may be taken on WMAs at anytime during archery season EXCEPT when bucks only seasons are in progress on the respective WMA. Also, archery season restricted on Atchafalaya Delta, Salvador, Lake Boeuf and Pointe-aux-Chenes WMAs. (See WMA for details).

BOW AND ARROW REGULATIONS: Longbow, compound bow and crossbow or any bow drawn, held or released by mechanical means will be a legal means of take for all properly licensed hunters. Bow and arrow fishermen must have a sport fishing license and not carry any arrows with broadhead points unless a big game season is in progress.

IT IS UNLAWFUL:

Persons hunting on privately owned, legally posted land may wear a hunter orange cap or hat in lieu of the 400 square inches. These provisions shall not apply to persons hunting deer from elevated stands on property that is privately owned and legally posted or to archery deer hunters hunting on legally posted lands where firearm hunting is not allowed by agreement of the landowner or lessee. However, anyone hunting deer on such lands where hunting with firearms is allowed shall be required to display the 400 square inches or a hunter orange cap or hat while walking to and from elevated stands. Deer hunting on WMAs is restricted to still hunting only. No WMA will be open for deer during the early still hunt season unless so specified.

Construction of and/or hunting from permanent tree stands or permanent blinds on WMAs is prohibited. Any permanent stand or permanent blind will be removed and destroyed. A permanent blind is any blind using non-natural materials or having a frame which is not dismantled within two hours after the end of legal shooting time each day. Blinds with frames of wood, plastic, metal poles, wire, mesh, webbing or other materials may be used but must be removed from the WMA within two hours after the end of legal shooting time each day. Blinds made solely of natural vegetation and not held together by nails or other metallic fasteners may be left in place but cannot be used to reserve hunting locations. All decoys must be removed from the WMA daily. Permanent tree stands are any stands that use nails, screws, spikes, etc. to attach to trees and are strictly prohibited. Portable deer stands (those that are designed to be routinely carried by one person) may not be left on WMAs unless the stands are removed from trees and left in a non-hunting position (a non-hunting position is one in which a hunter could not hunt from the stand in its present position). Also, all stands left must be legibly tagged with the user's name, address, phone number and Big Game Hunting License number (or Lifetime License number). No stand may be left on any WMA prior to the day before deer season opens on that WMA and all stands must be removed from the WMA within one day after the close of deer hunting on that WMA. Free standing blinds must be disassembled when not in use. Stands left will not reserve hunting sites for the owner or user. All portable stands, blinds, tripods, etc. found unattended in a hunting position or untagged will be confiscated and disposed of by the Department of Wildlife and Fisheries. LDWF is not responsible for unattended stands left on area.

PHYSICALLY CHALLENGED WHEELCHAIR CONFINED Deer and Waterfowl Hunting Areas

Tractor or implement tires with farm tread designs R1, R2 and R4 known commonly as spade or lug grip types are prohibited on all vehicles.

Entrances to ATV trails will be marked with peach colored paint. Entrances to Handicapped-Only ATV trails will be marked with blue colored paint. Entrances to ATV trails that are open all year long will be marked with purple paint. The end of all ATV trails will be marked by red paint. WMA maps serve only as a general guide to the route of most ATV trails, therefore all signage and paint marking as previously described will be used to determine compliance. Deviation from this will constitute a violation of WMA rules and regulations.

ATVs, and motorcycles cannot be left overnight on WMAs EXCEPT on designated camping areas. SUMMARY OF FEDERAL REGULATIONS

In addition to State regulations, the following federal rules apply to the taking, possession, shipping, transporting and storing of migratory game birds:

RESTRICTIONS - No person shall take migratory game birds:

With a trap, snare, net, rifle, pistol, swivel gun, shotgun larger than 10-gauge, punt gun, battery gun, machine gun, fishhook, poison, drug, explosive or stupefying substance.

With a shotgun capable of holding more than three shells, unless it is plugged with a one-piece filler which is incapable of removal without disassembling the gun.

From a sink box (a low floating device, having a depression affording the hunter a means of concealment beneath the surface of the water).

From or with the aid of a car or other motor-driven land conveyance or any aircraft, EXCEPT that paraplegic and single or double amputees of the legs may take from any stationary motor vehicle or stationary motor-driven land conveyance. "Paraplegic" means an individual afflicted with paralysis of the lower half of the body which involves both legs, usually due to disease of or injury to the spinal cord.

From or by means of any motor boat or sailboat unless the motor has been completely shut off and/or the sail furled and its progress therefrom has ceased.

By the aid of baiting or on or over a baited area where a person knows or reasonably should know that the area is or has been baited. A baited area is considered to be baited for 10 days after complete removal of any bait. Baiting includes placing, exposing, depositing, distributing or scattering of salt, grain or other feed that could serve as a lure or attraction for migratory game birds to, on, or over areas where hunters are attempting to take them. Agricultural areas must be prepared in accordance with official recommendations to be legally hunted. It is a separate offense to place or direct placement of bait on or adjacent to an area that causes, induces, or allows another to hunt by the aid of bait or over a baited area. Hunters are responsible for ensuring that an area has not been baited and should verify its legality prior to hunting. The maximum federal penalties are: for hunting over bait; \$15,000/6 months jail, and placing bait; \$100,000/1 year jail.

Using records or tapes of migratory bird calls or sounds, or electronically amplified imitations of bird calls.

By driving rallying or chasing birds with any motorized conveyance or any sailboat to put them in the range of the hunter.

By the aid of baiting (placing feed such as corn, wheat, salt or other feed to constitute a lure or enticement), or on or over any baited area. Hunters should be aware that a baited area is considered to be baited for 10 days after the removal of the bait and it is not necessary for the hunter to know an area is baited to be in violation.

CLOSED SEASON

No person shall take migratory game birds during the closed season.

SHOOTING OR HAWKING HOURS

No person shall take migratory game birds except during the hours open to shooting and hawking as prescribed.

DAILY BAG LIMIT

No person shall take in any one day more than one daily bag limit.

FIELD POSSESSION LIMIT

No person shall possess more than one daily bag limit while in the field or while returning from the field to one's car, hunting camp, home, etc.

WANTON WASTE

All migratory game birds shall be retrieved, if possible, and retained in the custody of the hunter in the field.

TAGGING

No person shall give, put or leave any migratory game birds at any place or in the custody of another person unless the birds are tagged by the hunter with the following information:

1. The hunter's signature.
2. The hunter's address.
3. The total number of birds involved, by species.
4. The dates such birds were killed.

Tagging is required if the birds are being transported by another person for the hunter or if the birds have been left for cleaning, storage (including temporary storage), shipment or taxidermy services.

POSSESSION OF LIVE BIRDS

Wounded birds reduced to possession shall be immediately killed and included in the daily bag limit.

DRESSING

No person shall completely field dress any migratory game bird (except mourning doves and band-tailed pigeons) and then transport the bird from the field. The head or one fully-feathered wing must remain attached to all such birds while being transported from the field to one's home or to a migratory bird preservation facility.

SHIPMENT

No person shall ship migratory game birds unless the package is marked on the outside with: (a) the name and address of the person sending the birds, (b) the name and address of the person to whom the birds are being sent and (c) the number of birds, by species, contained in the package.

IMPORTATION

For information regarding the importation of migratory birds killed in another country, hunters should consult 50 CFR 20.61 through 20.66. One fully-feathered wing must remain attached to all migratory game birds being transported between a port of entry and one's home or to a migratory bird preservation facility. No person shall import migratory game birds killed in a foreign country, except Canada, unless such birds are dressed (EXCEPT as required in 20.63), drawn and the head and feet are removed. No person shall import migratory game birds belonging to another person.

MIGRATORY BIRD HUNTING AND CONSERVATION STAMP (DUCK STAMP)

The law requires that each waterfowl hunter 16 years of age and older must carry on his person a valid Migratory Bird Hunting and Conservation Stamp (federal duck stamp) signed in ink across the face. Hunters younger than 16 may voluntarily purchase a duck stamp and help preserve wetlands for waterfowl. Louisiana law requires that persons between the ages of 16 and 59 inclusive and non residents 16 years of age and older have a valid state duck stamp, signed in ink across the face, in possession while hunting ducks, geese and coots. All residents hunting migratory game birds (mourning doves, ducks, goose, woodcock, rails, snipe, coots or gallinules) in Louisiana must be HIP certified in addition to their appropriate licenses.

NONTOXIC SHOT REGULATIONS AND ZONE DESCRIPTIONS

No person shall take migratory game birds while possessing shot other than steel or other approved shot. This restriction applies only to ducks, geese, brant, swans and coots.

DUAL VIOLATION

Violation of State migratory bird regulations is also a violation of Federal regulations.

REFERENCE

Federal regulations related to migratory game birds are located in Title 50, Code of Federal Regulations, Part 20.

□-indicates rest areas with sewage disposal station

CLEAN WATER-LIFE DEPENDS ON IT

Clean water is important to all of us. In one form or another, almost every living thing depends upon clean water to survive. One important way for boaters and fishermen to help protect and improve the quality of our waters is to eliminate the discharge of sewage.

Sewage discharges, whether from an on-board toilet or "head," or from the careless dumping of a portable toilet, are both highly unsightly and unhealthy. Sewage can ruin areas for swimming, water skiing and other sports. Sewage also contains large amounts of disease carrying bacteria and viruses. Those microorganisms can contaminate shellfish beds and productive fishing areas. As a result, affected shellfish are unfit for human consumption, and decaying sewage can seriously degrade fishing opportunities by depleting the oxygen level in the water.

What You Can Do?

1. Use shore-side toilet facilities before going out on the water.
2. Dispose of waste from portable toilets or on-board sewage holding tanks properly at marine pump out stations or roadside sewage dump stations.

MARINA OWNERS/OPERATORS Boaters can legally and properly dispose of waste only at roadside (rest area) RV dump stations or at properly installed and operated marine pump out and dump stations. Some marinas already have such facilities and boaters use them regularly. To assist marinas with the cost of installing such facilities, Congress passed the Clean Vessel Act of 1992. The Act is administered in Louisiana by the Department of Wildlife and Fisheries, which will reimburse marinas owners/operators up to 75 percent of the cost of installing or renovating approved disposal facilities. To help with operational costs, marina may charge up to \$5.00 per use for facilities built or maintained with Clean Vessel Act funds. For further information, please contact: Department of Wildlife and Fisheries, Socioeconomic Section, P. O. Box 98000, Baton Rouge, LA 70898-9000, or call 225/765-2868.

BOATERS

Both federal and state laws prohibit the discharge of untreated sewage into inland waterways or coastal waters within three miles of shore.

Recreational vessels with toilets installed are required to have a properly operating Coast Guard certified Marine Sanitation Device (MSD) in operation. Although MSDs may be equipped with a Y-valve that allows the discharge of sewage in offshore waters, those valves must be secured and locked in a closed position anytime the vessel is operating in U.S. territorial waters. Portable toilets are not classified as installed toilet facilities and are not subject to MSD certification or regulation. It is illegal to empty any portable toilet into the waterway.

Hunter Beware!!!

Do you know there is an associated risk when hunting or traveling by boat? You have on more clothing that will absorb more water, the water is much colder and your chances of survival are diminished as a result. Buckle Up - In a PFD, it may just save your life....
